

## Watershed Improvement Review Board Report for Calendar Year 2005

The Iowa Watershed Improvement Review Board was created by the Iowa Legislature and signed into law by the Governor in 2005 as Senate File 200. This statute is now codified in Iowa Code Chapter 466A.

The fifteen-member board was appointed with the initial meeting being held August 22, 2005. Subsequent Board meetings were held October 10, December 2, and December 19. Attachment 1 lists the board members and their organization affiliation.

The Board created a five-member subcommittee to develop and submit to the Board the Request for Applications (RFA) documents and procedural guidelines. These RFA documents were approved as modified on October 10, 2005.

A website developed and maintained by staff from, and linked to, the Iowa Department of Agriculture and Land Stewardship is available at: <http://www.agriculture.state.ia.us/IWIRB.htm>.

The Board announced the first RFA for the Watershed Improvement Fund on October 14, 2005 and accepted applications until November 30, 2005.

The Board received 48 applications in response to the first RFA. These applications requested \$12.7 million in Watershed Improvement Funds and leveraged an additional \$18.0 million.

On December 19, after reviewing and ranking the applications individually, Board members selected seventeen applications for funding. The seventeen projects were approved for \$4,820,200 of Watershed Improvement Funds. Grant agreements for these applications are being developed. Attachment 2 lists the approved projects, dominant water quality issue being addressed with WIRB funds, and funding amount.

Data on the seventeen selected projects:

- These projects included portions of 24 counties
- The \$4.8 million requested of the Watershed Improvement Fund leveraged an additional \$9.2 million for water quality improvements and protection
- Approved individual project funding ranged from \$23,000 to \$500,000

# Attachment 1. Membership of the Watershed Improvement Review Board 2005

Sponsoring Organization	Name	City	Occupation	Term Ending
Agribusiness Assn of Iowa	Mark Rosenbury	Sioux City	Vice President, Terra Industries	2006
Iowa Assn of Water Agencies	Jolee Belzung	Ankeny	Director, Ankeny Municipal Utilities	2007
Iowa Environmental Council	Susan Heathcote	Des Moines	Research Director, Iowa Environmental Council	2006
Iowa Farm Bureau	Leah Maass	Ellsworth	Coordinator, Boone River Watershed Project; 5 <sup>th</sup> generation farmer	2006
